**AMBASSADOR MOLELEKENG RAPOLAKI, KINGDOM OF LESOTHO,
TO DISCUSS HER COUNTRY'S HISTORY AND FUTURE AT GW UNIVERSITY CLUB
MARCH 25**

Program Part of University Club's International Connection Speaker Series

EVENT: The Historical Perspective of the Kingdom of Lesotho: The Current Situation and the Way Forward, a discussion with Molelekeng Rapolaki, ambassador of the Kingdom of Lesotho to the United States. The event is part of The George Washington University Club's International Connection Speaker Series.

WHEN: Tuesday, March 25, 2003
6:30 – 8:30 p.m.

WHERE: The George Washington University Club
1918 F Street, NW
Washington, D.C. (Foggy Bottom-GWU Metro, Orange and Blue lines)

COST: Members and guests \$15.95 per person. Non-members \$19.95 per person.

BACKGROUND:

Ambassador Rapolaki received a bachelor's degree in economics from the National University of Lesotho and a master's of public administration from the University of Southern California, Los Angeles. Prior to her current role, Rapolaki was the principal secretary to the Ministry of Development Planning. She has held director positions of population and manpower planning within the Ministry of Economic Planning, and of economic policy within the Ministry of Development Planning.

Lesotho, The Mountain Kingdom or the "Kingdom of the Sky," is a small independent country surrounded by the Republic of South Africa. How did this happen historically? How has the nation evolved – culturally, politically and economically – through past decades to this day? Examination of the current situation will outline how the country is striving to position itself in the global world of severe economic competition, in the face of both poverty and HIV/AIDS that have ravaged most of the African countries. Given these perspectives, what are the challenges for the future development of Lesotho? The ambassador will take the audience through a journey highlighting the fundamental principles that have helped the country survive as a nation.

Reservations are required and cancellation policy applies. Please call the club receptionist at (202) 994-2355 to make a reservation. Valet parking is \$5.00 per car.

For more information about the GW University Club, visit www.gwclub.com.

**BUSINESS IS MONITORED FOR TRANSPARENCY, ACCOUNTABILITY AND
LEGITIMACY; WHAT ABOUT NGOS?
ARE NGOS UP TO THE TASK OF GLOBAL GOVERNANCE?**

**These Questions and Others Will Be Addressed at GW Panel Discussion
March 10**

EVENT: Transparency, Accountability and Legitimacy: Are Non-Governmental Organizations (NGOs) Up to the Task of Global Governance? A forum moderated by **Hildy Teegen**, associate professor of international business, The George Washington University School of Business and Public Management. NGOs have traditionally been quick to point out the mistakes businesses have made with respect to human rights, but not their achievements. Do NGOs need to revamp their public posturing to include proactively praising companies that provide leadership? Also, NGOs do not face the same scrutiny and spotlight that business does, and yet they monitor multinationals. This topic will be discussed from the perspective of the NGOs, business and policy. The program will be open to questions from the audience.

WHEN: Monday, March 10, 2003
6:00 p.m. – 7:30 p.m.

WHERE: The George Washington University
Marvin Center, Third Floor Amphitheater
800 21st Street, NW, Washington, D.C.
(Foggy Bottom-GWU Metro, Blue and Orange lines)

PANEL: **Elizabeth Howard**, program chair, Human Rights Lecture Series
Mike Jendrzeczky, Washington director, Human Rights Watch Asia
Keith Darcy, director emeritus, The Ethics Officers Association
Steven Billet, director of career and external programs, GW Graduate School of Political Management

BACKGROUND:

This will be the first of three forums on the topic of human rights hosted by GW and sponsored by Ford Motor Company.

GW REPORT SUPPORTS PRIVATE SECTOR INVESTMENT IN SPACE

Space Policy Institute Scientist and Professor Henry Hertzfeld Authors Report for Commerce Department Reaffirming Investment in Commercial Uses of Space

WASHINGTON – The future of commercial space research received a strong endorsement from the U.S. Department of Commerce (DOC) after receiving the findings of a report by Henry Hertzfeld, research scientist at The George Washington University Elliott School of International Affairs' Space Policy Institute. Hertzfeld's report, "Space Economic Data," prepared for the DOC's Office of Space Commercialization, supports the department's commitment in promoting the development of new markets in space by providing better economic information.

According to the report, increasing the availability and quality of data about existing and potential space markets aids U.S. economic growth by facilitating the decision-making efforts of private sector entrepreneurs, customers and investors, as well as the efforts of government officials working to promote business development.

In order to identify technological opportunities and encourage investment in the commercial uses of space, the DOC needs more accurate and reliable economic data about the space sector, the study said. "At present, the space budget is spread across multiple departments and agencies with oversight being done by a variety of Congressional committees," said Hertzfeld. "Thus, providing a precise budget picture of space products and services is extremely difficult."

Hertzfeld emphasizes the importance of commercial space research and development in maintaining an advantage in this leading-edge technological sector. "Space offers enormous opportunities for growth, but only if comprehensive and uniform data are available to analysts," said Hertzfeld. "Getting and analyzing this data is critical to the DOC's efforts to identify prospects and encourage private sector investment."

-more-

The four main recommendations of the report call for:

- On-going dialogue involving government, industry, academia, not-for-profit and foreign space economic data producers and users;
- Development of an existing inventory of government data on space economic and business activities;
- Clear definitions of space activities and standards for space economic data quality; and
- Effective methods for improving access to space economic data and the feasibility of a central, publicly accessible electronic warehouse.

Hertzfeld emphasizes that although progress may be slow – given that economic data usually have a lag time between collection and publication – it is time for a serious effort to improve space economic data; a delay will render future efforts more difficult. The DOC could not agree more.

For details of the workshop that contributed to this report, visit www.ta.doc.gov/space/library/reports/#data-2002. Copies of the report are available online at both the The Space Policy Institute www.gwu.edu/~cistp/index1.html and at the DOC's Office of Space Commercialization www.ta.doc.gov/space.

**INTERNATIONAL EXPERTS TO DISCUSS APPLICATIONS OF
OPEN SOURCE SOFTWARE AT GW CONFERENCE
MARCH 17-19**

EVENT: "Open Standards/Open Source for National and Local eGovernment Programs in the U.S. and EU" will present best practices, raise awareness and share experiences among policymakers from the United States and Europe, along with university and industry specialists in Open Source, e-Government and related fields. The Cyber Security Policy and Research Institute (CSPRI) at The George Washington University is hosting the conference.

WHEN: Monday, March 17 – Wednesday, March 19, 2003
Conference begins each day at 7:30 a.m. (see agenda at www.eGovOS.org)

WHERE: The George Washington University
Marvin Center Grand Ballroom, 3rd floor
800 21st Street, NW, Washington, D.C.
(Foggy Bottom-GWU Metro, Blue and Orange lines)

COST: This event is free, registration is required online no later than March 14, 2003, at www.eGovOS.org.

BACKGROUND:

Open Source refers to software where the source code is freely available to anyone. The Center of Open Source and Government conferences are the primary venue for discussion on the ways governments can use Open Source techniques to address information technology issues. The center's Open Source conferences bring together representatives of local, national and international organizations in both the private and public sectors.

The conference will feature more than 125 presentations on several tracks relating to Open Source, including European perspectives, business cases, security, federal enterprise architecture, government perspectives and projects, eHealth, corporate perspectives, and legal issues, as well as Open Source policy, projects, desktop, and company and consultant experiences.

CSPRI was established in 1993 at The George Washington University's School of Engineering and Applied Science, and is rapidly becoming a premier venue for policy discussion and research in the growing Open Source movement.

For more information on the Open Source conference, please visit the meeting Web site at www.eGovOS.org or contact Tony Stanco at (202) 994-5513.

For more news about GW, visit the GW News Center at www.gwnewscenter.org.

**GW INFORMATION ASSURANCE CURRICULUM
CERTIFIED AMONG THE NATION'S BEST**

**GW's Rigorous Information Assurance Curricula Exceeds Basic
National Training Standards**

WASHINGTON – The Committee of National Security Systems (CNSS), under the National Security Agency's (NSA) Information Assurance Courseware Evaluation Program, has certified that The George Washington University's information assurance curriculum meets two additional standards beyond the National Training Standard for Information Security Professionals (NSTISSI 4011), placing GW among an exclusive group of universities.

"The School of Engineering and Applied Science and its faculty have quickly come to the forefront in an area that is critical to our nation's security," said Donald R. Lehman, executive vice president for academic affairs. "GW is very pleased and proud to be among such an elite group of universities providing the strongest information assurance curriculum in the country."

Prior to 2003, only three universities had been certified as meeting more than the NSTISSI 4011 standard. GW recently joined this select group by receiving certification to the NSTISSI 4012 standard (Designated Approving Authority) and the NSTISSI 4013 standard (Systems Administrators in Information Systems Security), along with certification for the National Training Standard.

Last year, GW became one of only 36 universities across the United States to be designated as a Center of Academic Excellence (CAE) in Information Assurance by the NSA-led National INFOSEC Education and Training Program.

"This recognition is a reflection of the care and diligence that we expended in designing the learning objectives and the linkages between courses in our program," said Julie Ryan, director of the information security management program in GW's School of Engineering and Applied Science. "It's also a testament to the breadth and depth of our capability."

The NSA established the CAE program to reduce vulnerabilities in the nation's critical information infrastructure by promoting higher education in information assurance and producing a greater number of professionals with information assurance expertise. CAE-designated universities play a key role in educating professionals to protect America's cyberspace.

-more-

This April, Ryan will travel to the CNSS conference in Williamsburg, Va., to receive a framed certificate on behalf of GW. This certification of compliance authorizes GW to issue appropriate certificates to students who successfully complete the courses that correspond to the respective standards.

The School of Engineering and Applied Science prepares engineers to address society's technological challenges by providing outstanding undergraduate, graduate and professional educational experiences and by stimulating and promoting innovative, fundamental and applied research activities. Through its engineering management and systems engineering department and its computer science department, the school offers graduate certificates, masters of science degrees and doctoral research in information and computer security.

**For more information about GW's information security management program, visit
www.seas.gwu.edu/~infosec.**

GW PROFESSOR JOHN LOGSDON APPOINTED TO THE COLUMBIA ACCIDENT INVESTIGATION BOARD

Board to Investigate the Space Shuttle Columbia Disaster

WASHINGTON – John Logsdon, professor of political science and international affairs and director of The George Washington University Elliott School of International Affairs' Space Policy Institute, has been selected by NASA to join the Columbia Accident Investigation Board (CAIB). Admiral (ret.) Harold W. Gehman, Jr., chairman of the board investigating the disaster of the space shuttle Columbia, recently announced the appointment of Logsdon along with two other prominent experts: Sally Ride, a former NASA astronaut and the first woman in space, and Douglas D. Osheroff, a Nobel prize-winning physicist.

"I hope that my long career as an independent scholar and analyst of space issues can help the board put the Columbia accident in the historical perspective of national policy regarding human space flight and can help frame the needed debate over the future of that policy," said Logsdon.

The independent panel investigating the loss of the space shuttle Columbia has grown from its original eight members of mostly government and military officials to include Logsdon and four other individuals from outside the government. The investigation is in its fifth week, and is likely to continue for several more months before the board issues its final report.

Logsdon has been at GW since 1970. He holds a B.S. in physics from Xavier University (1960) and a Ph.D. in political science from New York University (1970). His research interests focus on the policy and historical aspects of U.S. and international space activities. A recipient of the NASA Distinguished Public Service Medal, Logsdon is a member of the NASA Advisory Council and the Commercial Space Transportation Advisory Committee of the U.S. Department of Transportation.

Logsdon is the author of *The Decision to Go to the Moon: Project Apollo and the National Interest* and general editor of the eight-volume series *Exploring the Unknown: Selected Documents in the History of the U.S. Civil Space Program*. He has written numerous articles and reports on space policy and history.

GW's Space Policy Institute is one of the few places in the world providing focused research and analysis attention to space policy issues and offering graduate courses in space policy.

KIMBERLY STAMBLER NAMED COORDINATOR FOR GW's EMeRG PROGRAM

GW Student to Lead First Responder Group Upon Graduation in May, to Provide Quality Emergency Medical Services On Campus

Washington, D.C. – Kimberly Stambler has been named coordinator of the Emergency Medical Response Group (EMeRG) at The George Washington University and will assume the position upon her graduation from GW in May.

GW's EMeRG is a recognized basic life support, first responder agency within the District of Columbia. Led by the University Police Department (UPD), EMeRG's certified personnel are members of the GW community who provide quality emergency medical services in a variety of settings on campus, including special events.

Stambler has been part of the EMeRG program since August 2000, volunteering as an Emergency Medical Technician (EMT) for three years, and as a Student Management Team member since August 2001. As a student leader, Stambler ran calls as a crew chief and was responsible for managing the areas of staffing and special events.

"We are excited to bring on board someone who has been so committed to the mission of EMeRG as an undergraduate. Kim understands where we have been and our goals for the future," said Dolores Stafford, University Police Chief. "Kim provided strong leadership as a Student Management Team member and knows well the inner workings of this volunteer organization. She will be able to use this knowledge and experience to move EMeRG forward."

The Emergency Medical Response Group at GW is automatically dispatched, with UPD officers, in response to emergency situations. Rapid response times, in combination with high clinical standards, enable personnel to arrive on scene and immediately begin treatment to stabilize a patient. Personnel are members of the GW community and have obtained a minimum certification of EMT. Crew members volunteer their time to serve the community. The highest standards of patient care, quality assurance, and education are accepted and practiced by EMeRG's health care professionals.

**GW LAW SCHOOL WELCOMES SEN. PAUL S. SARBANES AS
23rd MANUEL F. COHEN MEMORIAL LECTURER
MARCH 31**

Sarbanes will Discuss "The Crisis in Corporate America - The Legislative Response"

EVENT: The George Washington University Law School's 23rd Manuel F. Cohen Memorial Lecture featuring Sen. Paul S. Sarbanes, D-MD. Sarbanes, who was the co-author of the Sarbanes-Oxley Act of 2002, a new law governing corporate accountability, will discuss "The Crisis in Corporate America - The Legislative Response."

WHEN: March 31, 2003, 3:00 p.m.

WHERE: The George Washington University Law School
The Moot Court Room
2000 H Street, NW, Washington, D.C.
(Foggy Bottom-GWU Metro, Orange and Blue lines)

BACKGROUND:

Sarbanes made Maryland history in November 2000 by winning reelection to an unprecedented fifth term becoming the state's longest serving U.S. Senator. His previous posts include tenure with the Maryland House of Delegates and three terms in the U.S. House of Representatives from the 3rd Congressional District. Elected to the U.S. Senate in 1976, Sarbanes serves as the ranking member of the Senate Banking and Housing and Urban Affairs Committees, as well as a senior member of the Senate Foreign Relations, Budget and Joint Economic Committees.

The Manuel F. Cohen Memorial Lectureship, created by the friends and colleagues of Manny Cohen, was established at the Law School in 1979. This endowed lecture series serves as a living memorial to Cohen, a leader in the field of securities law, a dedicated public servant, former chairman of the Securities and Exchange Commissions, legal scholar and a teacher at the Law School for nearly two decades. The lecture is being sponsored by the GW Law School and the school's Enrichment Program Committee.

Members of the media are welcome to attend the lecture. For more information, contact Jeffrey Gutman at (202) 994-5797, jgutman@clinic.nlc.gwu.edu or Paul Fucito at (202) 994-0616, pfucito@main.nlc.gwu.edu.

**NOBEL ECONOMIC LAUREATE JOSEPH STIGLITZ SPEAKS ON GLOBALIZATION'S
FAILINGS AT GW'S ANNUAL JAMA LECTURE
MARCH 13**

EVENT: "Globalization and its Discontents," a new book by **Joseph Stiglitz**, 2001 Nobel Memorial Prize winner in economic science, will be the topic of discussion at The George Washington University Elliott School of International Affairs annual Japan Automobile Manufacturers Association (JAMA) lecture on globalization.

WHEN: Thursday, March 13, 2003
6:00 to 7:30 p.m.

WHERE: The George Washington University
Marvin Center Grand Ballroom, 3rd Floor
800 21st Street, NW, Washington D.C.
(Foggy Bottom-GWU Metro, Blue and Orange lines)

COST: The lecture is free and open to the public.

BACKGROUND:

Joseph Stiglitz has made seminal and fundamental contributions to every subfield of economic theory – microeconomics, macroeconomics, industrial organization, international economics, labor economics, financial economics and development economics. He holds joint professorships at Columbia University's School of International and Public Affairs and the Columbia Business School. From 1997 to 2000, Stiglitz served as the World Bank's senior vice president for development economics and chief economist. From 1993 to 1997, he served as a member and then as chairman of the Council of Economic Advisers, under President Bill Clinton.

This lecture series is made possible through the generous support from JAMA, a nonprofit trade association established in 1967 and comprised of the 14 manufacturers of passenger cars, trucks, buses and motorcycles in Japan. The objectives of JAMA are to encourage the sound development of the Japanese automobile industry and to contribute to economic and social welfare on a global scale.

**GW TO HOST AMBASSADORS FROM PAKISTAN AND AFGHANISTAN TO DISCUSS
THE WAR ON TERRORISM AND THE IMPLICATIONS OF A WAR IN IRAQ
MARCH 10**

EVENT: The George Washington University Elliott School of International Affairs launches the “Ambassadors Forum,” a conversation with **His Excellency Ishaq Shahryar** of Afghanistan and **His Excellency Ashraf Jehangir Qazi** of Pakistan. **Ambassador Karl F. Inderfurth**, Elliott School professor of the practice of international affairs, will moderate.

WHEN: Monday, March 10, 2003
4:00 to 5:30 p.m.

WHERE: The George Washington University
The Elliott School Commons, Room 103
2013 G Street, NW, Washington, D.C.
(Foggy Bottom-GWU Metro, Blue and Orange lines)

COST: The lecture is free and open to the public.

BACKGROUND:

The ambassadors of Afghanistan and Pakistan – Ishaq Shahryar and Ashraf Jehangir Qazi, respectively – will discuss their views of the ongoing “War on Terrorism” and the difficulties and opportunities that war presents to their two countries and regional stability. In addition, the two ambassadors will be asked to offer their perspectives on the implications for their countries and the region of a U.S.-led war in Iraq.

This conversation will be the first in a new series offered by GW’s Elliott School of International Affairs. The “Ambassadors Forum” will provide a venue for ambassadors from all regions to present their views to the GW community and other invited guests from government, Capitol Hill, the private sector and the media. Ambassador Karl F. Inderfurth, assistant secretary of state for South Asian Affairs (1997-2001), professor of the practice of international affairs and director of GW’s International Affairs Program, will host the discussions. Future events will include a panel discussion by several chiefs of mission from Latin America and a “farewell address” on April 7 by Her Excellency Edith Grace Ssempala, ambassador of Uganda.

**GW'S DIMOCK GALLERY PRESENTS
MASTER OF FINE ARTS THESIS SHOW
NOW THROUGH MARCH 28**

EVENT: "MFA Thesis Show," an exhibition of selected thesis works from Master of Fine Arts candidates James Hicks, Jacqueline Kierans and Karen Carruth, presented by The George Washington University Dimock Gallery.

WHEN: Exhibition Dates: Now Through Friday, March 28, 2003
Gallery Hours: Tuesday – Thursday 11:00 a.m. – 1:00 p.m.
Friday 11:00 a.m. – 3:00 p.m.

WHERE: The George Washington University
Dimock Gallery, Lisner Auditorium lower level
730 21st Street, NW
Washington, D.C. (Foggy Bottom/GWU Metro, Blue and Orange lines)

COST: Free and open to the public.

BACKGROUND:

Paintings and Relief Prints, selected works by Karen Carruth, address issues of transparency and color. Her unique paintings on mylar are hung so that they transept the gallery space. Visitors are able to walk around the paintings that break up the space as free-floating panels, along with being able to view both around and through the paintings.

Above and Below the Surface: Serigraphic Monoprints on Clay, selected works by Jacqueline Kierans, evokes nature through patterns applied to clay of tree branches, crows and other decorative patterns. Her composite pieces explore texture and form in an unusual mixed-media approach to relief sculptures. Kierans, originally from Scotland, has consistently won awards for her work in student exhibitions.

Unboxing Package Design, selected works by James B. Hicks III, demonstrates the way three-dimensional designs on paper can be cut and folded to become clever and effective packaging designs for all kinds of products.

**GW's LUTHER W. BRADY ART GALLERY TO HOST ANNUAL AWARDS SHOW
NOW THROUGH MARCH 28**

EVENT: The Annual Awards Show is the premier show featuring works by undergraduate seniors and graduate fine arts students from The George Washington University's Department of Fine Arts and Art History. The Luther W. Brady Art Gallery and the Department of Fine Arts and Art History are sponsoring the event.

WHEN: Exhibition Dates: Now Through Friday, March 28, 2003
Gallery Hours: Tuesday – Friday, 10 a.m. to 5 p.m.

WHERE: Luther W. Brady Art Gallery
Media and Public Affairs Building, 2nd Floor
805 21st Street, NW
Washington, D.C. (Foggy Bottom/GWU Metro, Blue and Orange lines)

COST: Free and open to the public

BACKGROUND:

All works on display at the Annual Awards Show are eligible for various awards to be granted by a jury of art professionals. In this year's show, figural representations abound in two-dimensional and three-dimensional works.

More than 60 works by emerging artists are featured in the show at the Luther W. Brady Art Gallery. One can discover works that embrace both realism and abstraction, there's something for everybody. This packed exhibition revels in youthful exuberance, a young group of artists at the top of their game. Figures literally leap from the ceiling and crowd the walls: innovative approaches to ceramic forms are found in Akiko Nishijima's agonized tonal scream, a larger-than-life ceramic mosaic; and on the lighter side, Carl Schoenberger's *St. John, The Legislator* (Senator John McCain) and *St. Mark, The Satirist* (Mark Russell) depict portraits in clay of famous political types expounding from the pulpit and piano. Bold paintings of industrial wastelands contrast to delicate self-portraits, serial reflections on the same facial structure.

There are many departmental prizes given to outstanding students. Awards will be given for work in aquarelle painting, ceramics, design, drawing, interior design, painting, photography, printmaking, sculpture and visual communications. Awards include two Robert N. Alfandre Purchase Prizes in Drawing, the Lynn Kay Prize in Ceramics, the Nuri Ozdogan Ceramic Prize, the M. A. Langenkamp Prize in Abstract Painting and the Morris M. Aein Memorial Prize in Drawing. Judges for the 2003 Annual Awards Show are Bonnie Lee Holland, artist, designer, consultant and GW alumna; and Kathryn Jackson, artist and GW alumna.

“IS NORTH KOREA REALLY PART OF THE AXIS OF EVIL?”

MARCH 25

GW Visiting Professor of Political Science Chong-Min Hyun to Discuss the North Korean Conflict in the First of a Three-Part Lecture Series

EVENT: “Is North Korea Really Part of the Axis of Evil?” the first lecture in a three-part series on North Korean issues. **Chong-Min Hyun**, visiting professor of political science at The George Washington University, will discuss the North Korean conflict and take questions from the audience.

WHEN: Tuesday, March 25, 2003
7:00 p.m. to 8:30 p.m.

WHERE: The George Washington University
Marvin Center 3rd Floor Continental Ballroom
800 21st Street, NW, Washington, D.C.
(Foggy Bottom-GWU Metro, Blue and Orange lines)

COST: The lecture is free and open to the public.

BACKGROUND:

Most believe North Korea is technologically more advanced and therefore potentially more dangerous than Iraq with respect to the development of the weapons of mass destruction. However, the Bush Administration is planning to use force against Iraq while it insists on peaceful negotiations with North Korea. Why? What are the roles of China, Japan, Russia and South Korea on this issue? What is the cause of the recent anti-American mood in Korea and how is it going to affect the crisis?

Chong-Min Hyun is a visiting professor of political science at The George Washington University, Long Island University and Oklahoma State University. He received his M.A. at The University of Iowa and B.A. from Yonsei University in Seoul, Korea. He has taught at the Academy of Korean Studies, Yonsei University, Hanyang University, Konkuk University and Kyung Hee University. Hyun has an expertise in East Asian, Korean and international politics; East Asian and U.S. governments; and public opinion and political socialization. He also is president-elect of the Korean Association of Public Policy, former dean of Kyung Hee University and president of Sosung Institute for Advanced Studies and vice-president of Kyonggi University. He has authored over 150 books and articles in both the English and Korean languages.

Subsequent lectures will discuss the following subjects: “North Korea – A Threat to U.S. Security?” (April 9) and “Multilateral Approaches to Resolving the North Korean Conflict” (April 21).

**GW PROFESSOR CHRISTOPHER H. STERLING NAMED 2003 STANTON FELLOW
BY THE INTERNATIONAL RADIO & TELEVISION SOCIETY**

WASHINGTON — Christopher H. Sterling, professor of media and public affairs and director of the graduate telecommunications program at The George Washington University, was this year's recipient of the International Radio and Television Society (IRTS) Foundation Stanton Fellow Award.

"Professor Sterling is the quintessential recipient of the IRTS Stanton Fellow Award," said Joyce M. Tudryn, president of the IRTS Foundation. "In addition to being an author and editor of numerous electronic media publications valued by educators across the nation, he is an academic leader and key spokesperson in the field, an extraordinary professor in the classroom and an inspiration to his colleagues."

Sterling received the award in recognition of more than 30 years of dedication to electronic media education at the annual IRTS Faculty and Industry seminar in New York. "We are proud to have one of our own receive this prominent award," said Albert L. May, acting director of GW's School of Media and Public Affairs.

The award was named for Frank N. Stanton, president of CBS from 1946-1973 and legendary champion of First Amendment rights for broadcast journalists. Stanton also is known for his dedication to the advancement to electronic media education.

The School of Media and Public Affairs, which has 18 full-time faculty, more than 400 undergraduate students and 25 graduate students, is committed to investigate and teach how ideas and information are communicated through the media and how media function as a central ingredient of a democracy. The school combines liberal arts education with professional skills, promoting a combination of theory and practice.

**EXPERTS TO DEBATE IMPACT OF INTERNET POLITICS
AT 10th ANNUAL GW POLITICS ONLINE CONFERENCE
MARCH 21**

Program also Features Presentation of Golden Dot Awards for Online Campaigning

EVENT: **10th Politics Online Conference**, a one-day conference recognized throughout the country as the premier event examining the intersection of politics and the Internet. Hosted by The George Washington University Institute for Politics, Democracy and the Internet and the Graduate School of Political Management, the conference will be divided into three tracks: campaigns, database management and constituent targeting. The program also will feature the **Golden Dot Awards** presented for civic excellence in online campaigning during 2001 and 2002.

WHEN: Friday, March 21, 2003
9:00 a.m. – 4:45 p.m.
Golden Dot Awards Presentation: 11:20 a.m. - 11:50 a.m.
For a complete conference agenda, visit www.ipdi.org/politicsonline/agenda.html.

WHERE: The George Washington University
Media and Public Affairs Building
805 21st Street, NW, Washington, D.C.

WHO: **Christopher M. Schroeder**, CEO & publisher, Washingtonpost.Newsweek Interactive
(partial list) **Julius Chambers**, treasurer, Edwards for President
Max Fose, former treasurer, McCain for President
Gena Wright, E-Advocacy director, American Association of Retired People
Lance Bennett, professor of political science, University of Washington
Eric Loeb, chief Internet architect, Democratic National Committee
Lee Rainie, director, Pew Internet and American Life
Mark Mellman, CEO, The Mellman Group
Zack Exley, moveon.org
Douglas Pinkham, president, Public Affairs Council

**GW MEDIA LAB WILL BE NAMED IN HONOR OF FORMER PUBLISHER OF
THE WASHINGTON POST, PHILIP L. GRAHAM**

Philip L. Graham Fund Presents Gift to School of Media and Public Affairs

WASHINGTON — The Philip L. Graham Fund has made a generous contribution to The George Washington University School of Media and Public Affairs (SMPA). To recognize this gift, GW will name a media lab, which is used in broadcast journalism and television production courses, in memory of the fund's namesake, who was the former publisher of *The Washington Post*.

The dedication of the lab will take place on Thursday, March 27, at 4 p.m. on the second floor of the Media and Public Affairs building (805 21st Street, NW).

"From its earliest days, the Philip L. Graham Fund has invested significantly in efforts to promote excellence in journalism," said Donald E. Graham, fund trustee and chairman of The Washington Post Company. "We are proud that the fund's support of GW's Centuries Campaign will further that goal through the establishment of the Philip L. Graham Fund Media Lab in the School of Media and Public Affairs. It is an honor to partner with the University in creating a world-class teaching and broadcast facility that will serve not only the needs of students but the larger local community as well."

Established in 1963, the fund is named for Philip L. Graham, who was publisher of *The Washington Post* and president of The Washington Post Company for many years before his death. Gifts from his widow, Katharine Meyer Graham, his friends and The Washington Post Company formed the initial corpus of the fund. The fund has used its resources to respond to a wide range of needs in the Washington, D.C., area including education, arts and humanities, journalism, and health and human services.

"We are delighted to be associated with the Philip L. Graham Fund," said Albert L. May, SMPA's acting director. "With this gift, our school will be better equipped to guide students as they strive to outline the next chapter in Mr. Graham's 'first rough draft of history.'"

The School of Media and Public Affairs, which has 18 full-time faculty, more than 400 undergraduate students and 25 graduate students, is committed to investigate and teach how ideas and information are communicated through the media and how media function as a central ingredient of a democracy. The school combines liberal arts education with professional skills, promoting a combination of theory and practice.

GW HOSTS NATIONALLY RENOWNED MOTIVATIONAL SPEAKER DR. JOSEPH MANCUSI

Dr. Mancusi to Discuss Hiring and Working with People with Disabilities and Barriers to Employment April 23

EVENT: The George Washington University, lead employer for the District of Columbia Business Leadership Network (DCBLN), will hold its quarterly network series meeting featuring guest speaker, Dr. Joseph L. Mancusi. Dr. Mancusi's seminar, titled "Going from Existing to Excelling: Keys to Success," will address how to work and hire people with disabilities and barriers to employment. As a medical psychologist Dr. Mancusi started programs aimed at getting cardiac, lung, spinal cord injured and psychiatric patients back to work.

WHEN: Wednesday, April 23, 2003
9:00 a.m. Networking
9:30 a.m. – 11:00 a.m. Program

WHERE: The George Washington University
Marvin Center, Room 308
800 21st Street, NW, Washington, D.C.
(Foggy Bottom-GWU Metro Station, Blue and Orange lines)

COST: Free and open to the public, compliments of GW, the DCBLN and Manpower, Inc.
Space is limited. RSVP by April 18, 2003 to: DCBLN@gwu.edu, or phone Linden-Liante Houston at (202) 994-9656.

BACKGROUND:

Dr. Mancusi will discuss working with people with disabilities and those with barriers to employment. He will present new and innovative ways of developing a workforce through hiring people with disabilities and barriers to employment. He also will demonstrate how to add value to an organization by concentrating on improving the passions, skills and self-worth of employees.

Dr. Mancusi is one of America's most dynamic motivational speakers, working with dozens of Fortune 100 companies and large associations. His inspiring messages are featured on two top-selling audio tapes. He speaks on change, men and women at work, emotional intelligence, leadership and teamwork. Dr. Mancusi has spoken at the White House six times, in all 50 states, in 14 countries, and appeared on NBC's *Today Show*, CNN and MSNBC.

As DCBLN's Lead Employer, GW hosts this seminar series on a quarterly basis through its Office of Equal Employment Opportunity to educate businesses on the merits of hiring persons with disabilities. The quarterly sessions feature guest speakers who address best practices and other topics for employers interested in expanding the diversity of their staffs by hiring persons with disabilities.

**GW PRESIDENT AWARDS PRESIDENT'S MEDAL TO CHINESE
INDUSTRIALIST DR. CHIANG CHEN
MARCH 21**

WASHINGTON/HONG KONG – GW President Stephen Joel Trachtenberg awarded The George Washington University President's Medal to Dr. Chiang Chen, chairman of the Chen Hsong Group and donor/founder of Chiang Industrial Charity Foundation, in a ceremony in Hong Kong today. Trachtenberg bestowed the medal on Dr. Chiang in recognition of his leadership of China's manufacturing industry, his commitment to China's economic development, and his lifelong support of human resource development and education.

"Throughout his life Dr. Chiang Chen has shown he is more than willing to devote his time and energy to helping others," said Trachtenberg. "I am privileged to present Dr. Chiang with the President's Medal. He exemplifies the qualities we look for in a President's Medalist, as well as in our fellow man."

The President's Medal was initiated by Trachtenberg in 1988 and is the highest honor that the president may himself award. It is given to individuals who have exhibited courage, character and leadership in their chosen fields and who exemplify the ability of all human beings to improve the lives of others. Previous recipients of the honor include Mikhail Gorbachev, former president of the Soviet Union; Vaclav Havel, president of the Czech Republic; Shimon Peres, former prime minister of Israel and a Nobel Peace Prize winner, among others.

"I would like to thank President Trachtenberg and The George Washington University for this prestigious award," said Dr. Chiang. "To look at the careers and lives of past President's Medalists and be included in this amazing group of individuals is a great honor."

Beginning his career as a mechanic with no professional training, Dr. Chiang opened a small machinery maintenance workshop in Hong Kong in 1958. By 1966, he had produced the first 10-ounce plastic-injection molding machine and was awarded "Best New Product" by the Chinese Manufacturers Association in the same year. His business eventually grew from that small workshop to the Chen Hsong Group, a global leader in today's plastic machinery industry.

Dr. Chiang observed the success of the German and Japanese economic development models following World War II and determined that advanced manufacturing technology would also spur China's modernization and raise the Chinese people's standard of living. In 1990 he, therefore, donated all the common shares he owned in the Chen Hsong Group to establish the Chiang Industrial Charity Foundation. The foundation's mission is to support activities and programs that help develop Chinese industrial technologists and professional executives to accelerate the development of manufacturing technology and industries in Chinese societies.

-more-

Through the foundation, Dr. Chiang has contributed generously to universities in Hong Kong and mainland China and to projects that support industrial development. The Chiang Industrial Charity Foundation is the largest private foundation in Asia providing training for leaders in the industrial manufacturing sector. More than 20,000 trainees have benefited from the foundation's programs.

Trachtenberg presented the President's Medal to Dr. Chiang during a business trip to East Asia. He is accompanied on the trip by his wife Francine; his older son Adam, who speaks Mandarin; and Dr. Timothy W. Tong, dean of GW's School of Engineering and Applied Science.

The GW School of Engineering and Applied Science has developed a partnership program with the Chiang Industrial Charity Foundation to train Chinese industrial leaders. The school and foundation successfully concluded their first program in fall 2002 and are preparing a second program for fall 2003.

**“AVOIDING ARMAGEDDON: OUR FUTURE, OUR CHOICE”
APRIL 1**

**GW’s Elliott School to Host a Preview and Discussion on Documentary that Raises Awareness
about Weapons of Mass Destruction and Terrorism**

EVENT: “Avoiding Armageddon: Our Future, Our Choice,” an eight-hour documentary to air on public television in mid-April, will be previewed by its Senior Editorial Producer Timothy Rockwood. The documentary is part of a campaign to raise the awareness of weapons of mass destruction (WMD) and terrorism. Rockwood will be on hand to discuss the campaign and its goals. This event is sponsored by The George Washington University Elliott School of International Affairs.

WHEN: Tuesday, April 1, 2003
6:00 p.m. to 7:30 p.m.

WHERE: The George Washington University
Marvin Center 3rd Floor Amphitheater
800 21st Street, NW, Washington, D.C.
(Foggy Bottom-GWU Metro, Blue and Orange lines)

COST: The lecture is free and open to the public.

BACKGROUND:

“Avoiding Armageddon,” will focus on the threats posed by nuclear, chemical and biological weapons. It will bring viewers face-to-face with people racing to use WMD. It also will look at the explosive connection between terrorism and these weapons and ask whether the world has the ability to control the weapons. “Avoiding Armageddon” is a production of Ted Turner Documentaries and is presented by WETA-TV in Washington, D.C.

The Elliott School of International Affairs is transforming the study of international affairs through our unrivaled faculty of experts and practitioners. Its rapidly expanding Security Policy Studies program provides strong grounding in the national security and defense policy-making process and the history of military strategy. It also focuses on the emerging international security agenda.

GW's CLOYD HECK MARVIN CENTER WINS ARCHITECTURAL ACCOLADES

Newly Renovated Building Honored By American Institute of Architects

WASHINGTON – The George Washington University's Cloyd Heck Marvin Center recently received two American Institute of Architects (AIA) design awards for the newly completed addition to the student center.

The Washington Chapter of the AIA awarded the Marvin Center addition its highest honor, Excellence in Architecture, picking the GW submission from more than 210 entries. The Virginia Society of the AIA honored GW with a Merit Award for Design Excellence, selecting the Marvin Center project from more than 120 submissions.

"We wanted to create a space that was state of the art and technologically advanced, but that also encouraged student interaction," said Michelle Honey, AIA, director of architecture, engineering and construction. "These awards, along with the positive feedback we have received from the GW community, reinforce our belief that the Marvin Center's renovation turned out successfully."

The judges for the Virginia AIA awards were impressed with the amount of light and life the renovation had brought to the Marvin Center. They applauded the addition as creating, "both an urban building and a great social building for the students." The selection committee for the Washington AIA awards was likewise impressed by how the glass and metal addition lightens the rest of the Marvin Center's exterior, reflecting light by day and projecting an inviting glow by night. "It energizes the corner," they concluded.

"We are constantly striving to be innovative in creating the academic, community and campus environments that our students need and have come to expect," said Peter Konwerski, executive director of the Marvin Center. "The Marvin Center renovation has dramatically improved the options GW provides for meetings, recreation, social space, dining and retail opportunities."

Honey accepted the two AIA design awards for the newly completed addition to the Marvin Center along with Bill Smith, project manager; Hal Davis, principal from the Washington, D.C. office of the Smith Group, a nationally renowned architectural firm; and K.C. Haile, vice president of Whiting Turner Construction Company.

Located at 800 21st Street NW, the Marvin Center is the hub of campus life at The George Washington University. The 19,000 square-foot addition to the student center was part of a multiple-phase renovation and construction project. The project included the Marc C. Abrahms Great Hall reception center; the creation of the Morris & Gwendolyn Cafritz Foundation Conference Center, which added six meeting rooms, an amphitheater and a new ballroom; a larger GW bookstore; additional seating for dining; and a gateway for the I-street entrance.

For more information about the Marvin Center, visit gwired.gwu.edu/mc/ or call (202) 994-7470.

COKIE ROBERTS TO HEADLINE WOMEN'S LEADERSHIP CONFERENCE HOSTED BY GW

**Roberts to Address Balancing a Demanding Career While Raising a Family
April 4**

EVENT: "Connections for the Future," a women's leadership conference sponsored by The Columbian Women of The George Washington University and The Mount Vernon Alumnae Association. The conference will address issues for women such as professional development, leadership trends, networking and mentoring, breaking the glass ceiling, and how to balance career, home and family.

WHEN: Friday, April 4, 2003
8:30 a.m. to 6:00 p.m.

WHERE: The George Washington University Mount Vernon Campus
2100 Foxhall Road, NW, Washington, D.C.
Eckles Memorial Library Auditorium – registration and morning sessions

COST: \$10 for Students; \$30 for GW/MVC graduates from 1997-2002; \$50 Professional Rate
To register, contact Shannon R. Mouton at smouton@gwu.edu or (202) 242-6605.

BACKGROUND:

Columbian Women was organized in 1894, five years after the first women students enrolled in the previously all-male Columbian College (founded in 1821), which was renamed The George Washington University in 1904. Thirteen women met to help a classmate who needed financial assistance to remain in college because of the accidental death of her father.

The annual granting of scholarships to worthy women has remained a major focus of The Columbian Women for more than a century. The grants are for tuition at GW only and are based on academic excellence and financial need. Funds are derived from a portion of members' dues, fund-raising projects, bequests and gifts and part of the GW annual fund drive. Funds are invested and the interest is granted as it accrues annually. Investments are currently more than \$1.5 million. Scholarship applicants are solicited from every collegiate part of the University.

Membership to The Columbian Women is open to women who: have earned academic credit at GW; are members of the faculty, Board of Trustees, administrative staff, spouse of faculty, spouse of a Board of Trustees member and spouse of administrative staff of GW; have received an honorary degree from GW.

For more information or questions about the conference, contact Shannon R. Mouton, director of Special Alumnae Programs, at smouton@gwu.edu or (202) 242-6605.

**“FROM ACADEMIA TO GOVERNMENT AND BACK”
MARCH 6**

**GW Shapiro Professor Miguel Rodríguez, Former President of Costa Rica, to Deliver
Annual Shapiro Lecture on His Life Before and After the Presidency**

EVENT: Miguel Rodríguez, The George Washington University J.B. and Maurice C. Shapiro Professor of International Affairs and former president of Costa Rica (1998-2002), will deliver his annual Shapiro Lecture on the advantages of an academic perspective for a world leader.

WHEN: Thursday, March 6, 2003
6:00 to 7:30 p.m.

WHERE: The George Washington University
Marvin Center 3rd Floor Amphitheater
800 21st Street, NW, Washington, DC
(Foggy Bottom-GWU Metro, Blue and Orange lines)

COST: The lecture is free and open to the public.

BACKGROUND:

Miguel Rodríguez will discuss his diverse career and how, as head of state, he used the tools of an academic to enhance political influence and articulate an agenda for Costa Rica's advancement towards the new economy of knowledge. Now back in academia, Rodríguez has focused on analyzing his administration's achievements and the development possibilities of Latin America, which is the subject of his new book, *The Costa Rican Solution* (La Solución Costarricense, EUNED and Fundación Popular Iberoamericana, San José, 2003).

Rodríguez is an economist with a wealth of experience in government, the private sector and academia. He served as president of Costa Rica and held other political positions such as congressman, president of the Legislative Assembly and several ministerial positions. He has held chief executive positions in the private sector, including founding his own company, Grupo Ganadero Internacional de Costa Rica. His academic career includes a visiting professorship in economics at University of California – Berkeley and professor of economics at the University of Costa Rica.

The J.B. and Maurice C. Shapiro Professorship of International Affairs was established by the J.B. and Maurice C. Shapiro Foundation to appoint distinguished figures in the field of international affairs or diplomacy whose experiences and reputations will bring an added measure of excellence to teaching and scholarship within GW's Elliott School of International Affairs.

**GW PROFESSOR DIANE BELL NAMED
AMERICAN COUNCIL ON EDUCATION FELLOW**

WASHINGTON – David Ward, president of the American Council on Education (ACE), has announced that Diane Bell, professor of anthropology and director of the Woman's Studies Program at The George Washington University, has been named an ACE Fellow for academic year 2003-2004.

The ACE Fellows Program, established in 1965, is designed to strengthen institutions and leadership in American higher education by identifying and preparing promising faculty and senior administrators for responsible positions in college and university administration. Thirty-seven fellows, nominated by the presidents and chancellors of their institutions, were selected this year in a national competition.

"The ACE fellowship will give me the skills, experience and insights and hone my leadership style," said Bell, "so that my vision of a problem-oriented, interdisciplinary, technologically savvy, globally responsible education might be achieved."

A native of Australia where she remains a research fellow in anthropology at Adelaide University, Professor Bell joined GW's faculty four years ago. Previously, she served as the Henry R. Luce Professor of Religion, Social Justices and Economic Development at Holy Cross College in Worcester, Mass. In addition to publishing widely in journals of anthropology, art, history and law, Bell has written and edited seven books.

Marlene Ross, director of the Fellows Program, noted that most previous fellows have advanced into major positions in academic administration. Of the nearly 1,400 participants in the first 38 years of the program, more than 250 have become chief executive officers and nearly 1,000 have become provosts, vice presidents or deans. "We're extremely pleased with the incoming class," Ross said. "The individuals selected have demonstrated strong leadership ability. The Fellows Program will sharpen and enhance their leadership skills and prepare them to address issues of concern to the higher education community."

Each ACE Fellow will focus on an issue of concern to the nominating institution while spending the next academic year working with a college or university president and other senior officers at a host institution. The fellow will be included in the highest level of decision making while participating in administrative activities and contributing to a leadership team exploring a project to benefit GW.

With more than 1,800 member institutions, ACE is the major coordinating body for higher education in the United States. It seeks to provide leadership and a unifying voice on key higher education issues and influence public policy through advocacy, research and program initiative.

Located four blocks from the White House, The George Washington University was created by an Act of Congress in 1821. Today, GW is the largest institution of higher education in the nation's capital. The University offers comprehensive programs of undergraduate and graduate liberal arts study as well as degree programs in medicine, law, engineering, education, business/public management and international affairs.
